

ASSET INTEGRITY

Enhancing **Reliability, Availability, Maintainability, Performance and Profit**

SERVICES

- Asset Integrity Management
- Conventional Non-Destructive Examination
- Advance Non-Destructive Examination
- Provision of Certified Inspectors
- Fitness for Service
- Drone Inspection
- Cathodic Protection
- Drilling and Tubular Inspection
- Government / Statutory Inspection
- Structural Assessment
- Lifting Equipment inspection
- Rope Access

INNOVATIVE SOLUTIONS

- Robotic Inspection and Tank Cleaning
- Remote Inspection—ROV and Drones
- Caisson, Riser and J-Tube Inspection
- Laser Scanning—Tank Calibration and Mapping

CONVENTIONAL NON-DESTRUCTIVE EXAMINATION

- Visual Inspection
- Magnetic Particle Inspection
- Dye Penetrant Inspection
- Radiographic Testing
- Ultrasonic Testing
- Vacuum Box Testing

8-10 Maharaj Avenue,
Marabella, Trinidad, W.I.

ASSET INTEGRITY

Enhancing **Reliability, Availability, Maintainability, Performance and Profit**

ADVANCED NON-DESTRUCTIVE EXAMINATION

- Acoustic Emission Testing
- Eddy Current Testing (ECT)
- Guided Wave Testing (GWT)
- IRIS Inspection
- Magnetic Flux Leakage (MFL) Testing
- Phased Array Ultrasonic Testing
- Pipeline Tracing and Mapping
- Time-of Flight Diffraction
- Corrosion Under Pipe Support
- Remote Field Testing
- Near Field Testing
- Digital Radiography Testing

PROVISION OF CERTIFIED INSPECTORS

- API 510—Pressure Vessel
- API 570—Pressure Piping Systems

- API 579—Fitness-for-Service
- API 580—Risk Based Inspection
- API 653—Above Ground Storage Tanks
- NACE CIP I/II/III
- NACE CP I/II/II
- NACE Corrosion Technician
- AWS/CWI

FITNESS FOR SERVICE

- In-situ Replication
- Harness Testing
- Positive Material Identification
- Optical Emission Spectroscopy

CATHODIC PROTECTION

- Design
- Install / Implement
- Monitor / Survey
