

ENGINES & NATURAL GAS COMPRESSORS

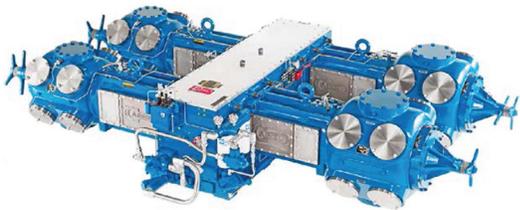

Optimal Performance, Minimal Routine Maintenance

INNIO Waukesha Natural Gas Engines

INNIO's Waukesha engines set an industry standard for low emissions, fuel flexibility, and high reliability. With a range of 335 hp to 5,000 hp, our rich and lean-burn engines provide distributed gas compression and power generation solutions. The latest Waukesha engine models and upgrades help operators stay emissions-compliant without sacrificing the operational benefits of extended service intervals, fuel flexibility, and increased power.

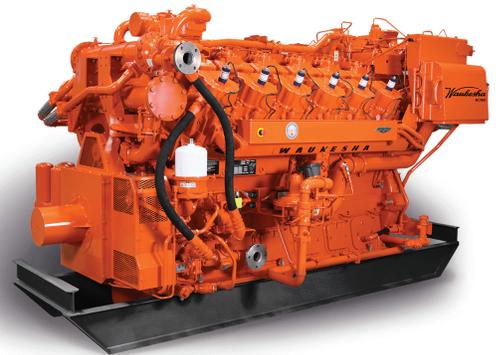

Ariel Natural Gas Compressors

Ariel is the largest manufacturer of separable reciprocating gas compressors worldwide. Ariel compressors can be driven by natural gas or other fuel-type engines and electric motors. Ariel sets the industry standard as a world-class manufacturer through expert design and manufacturing, industry-leading research and development, and unmatched customer support.

Superior, Ajax and Cooper-Bessemer Engines and Compressors

Cooper Machinery Services (Cooper) has been producing world-class industrial equipment since 1833. From steam engines to warship propulsion to the world's best-known engine and compressor brands, Cooper has been a mainstay for nearly 200 years. Through the acquisition of nine separate companies since 2019, Cooper now offers more services than ever. O.E.M. products include AJAX®, Cooper-Bessemer®, and Superior® natural gas engines and compressors.
